Assessment

Book
Divided into 15 units including an introduction and closing summary. The curriculum is designed for learning the Italian language and culture as a second language or as a foreign language.

CD-Rom Interactive
Offers multimedia activities which reinforce learning. The main goal of the CD-Rom is to provide an audio reinforcement to each activity presented in the book. The goal being to develop listening comprehension of the Italian language, though it also includes imagery designed to encourage communication.

Workbook
Contains exercises of reinforcement, consolidation and development for each unit. It is intended for homework but it can also be used in class.

Dictionary
Didactic Teacher's Guide
Includes all the material of the student book presented along with lesson plans and didactic aids, activities and notes on Italian culture which amplify and reinforce the lesson, providing the teacher with an invaluable tool to effectively organize the lesson.

Teacher's Resource Book
Supplies the teacher with tools to develop various supplemental activities. Includes detailed and organized work plans for the didactic activities used in the course.

Transparencies
Present the communicative situations presented in the lesson of each unit which can be used to provide socialization in the classroom. They are useful to reinforce vocabulary and enrich the students language experience. The transparencies contain the solutions to the activities and assessments in the student book.

Assessment
The booklet contains assessments for each unit. The booklet also contains a final annual assessment structured around different themes. More assessment tools are contained in the Teacher's Resource Guide.

CD-Rom assessment
Contains:
The pages of each assessment to be printed for the students
The solutions to all the assessments
An audio registration of each text
Grading tables
